

THE WINE LIST

Situated as we are, in the STELLENBOSCH REGION
one of the premier wine-making regions of the world, our focus is on presenting a selection of the best wines from this area.
Naturally, we also offer a smattering of other notable wines from the global vineyard, some common place, some scarce,
even rare and a few of the great benchmarks
Hopefully something for everyone

CORKAGE POLICY –R45 per 750 ml -

Being a Winelands Restaurant, we take great care in providing a varied
and balanced selection of wines. We trust that you will therefore understand
that should you bring your own wine, corkage will be levied

PAIRING FOOD AND WINE

White wine is to be drunk with white meats and fish, red wine goes with beef, and sweet wines go with desserts, period, and
to do it any other way is courting a visit from the Wine Police. – FALSE
But the truth is that until a couple decades ago this is how people decided what to drink with dinner. Thankfully, our minds
have broadened. The current thinking is that since food can be every bit as complex as wine, the options for creating rich
pairings are staggering. And it cannot be stressed enough:
a successful pairing is one that you find pleasing –
Remember - any combination you enjoy is a good combination!

Why you should drink even more?

A herd of wildebeest can move only as fast as the slowest wildebeest, and when the herd is hunted, it is the slowest
and weakest animals at the back that are killed first. This natural selection improves the herd by regular culling of
the weakest members. In much the same way, the human brain can only operate as fast as the slowest brain cells.

Excessive intake of alcohol, we all know, kills off brain cells, but naturally it only kills off
the slowest and the weakest brain cells first.

In this way, regular consumption of wine eliminates the weaker brain cells,

Chenin Blanc...

The work horse and most planted varietal in South Africa. The versatility of the grape allows it to produce wines both dry and sweet, still and sparkling - the chalky, more limestone-based soils are responsible for many of the lighter, crisper styles of the grape.

Good Chenin Blanc's are delightful wines, versatile with a wide range of food depending on their sweetness

<p>We took a trip backwards in time to make a thoroughly modern wine. A wine that will age beautifully for at least the next ten years, a tribute hopefully to the age and concentration of the vines, as well as to low, very low interruptive wine-making, a natural wine in every sense and finally bottled totally naturally with no cold stabilization or fining and it is crystal clear, slightly golden in a good way, with a still lime green rim and how did I do that you ask? Well it's unfiltered, unfinned just a Dirty Little Secret - naturally!</p>

<i>Attractive bright gold colour. Great intensity and sweetness – one of our richest vintages. Dried apricot and lemon skin, some flintiness, but mostly complex honey and treacle.</i>		
Hartenberg Riesling Noble Late Harvest 2010	70	350
<i>Lime and tropical fruit notes interspersed with distinctive candied orange peel botrytis character. The palate follows through with an unctuous, yet uncloying, medium-bodied elegance and a riveting limy minerality on the finish</i>
