DRINKS

PLEASE READ THIS IMPORTANT NOTE ABOUT OUR WATER SITUATION

We are currently at Level 3 Water Restrictions. We have had rains over our winter but this has not put an end to our water worries. We live in a water scarce environment, whenever and wherever, we all need to save water. We've always served complimentary tap water on arrival but no longer do this. We will serve tap water when it's requested but we urge you to rather order a bottle of the AquaV that we stock.

Also a note for all traveller's to our city and surrounds:

Please keep our water crisis in mind during your visit here and while staying at your hotel, Airbnb, guest house or backpacker. Every navy shower and skipped flush will be a contribution to the saving we desperately need to make.

A note on our almond milk:

We make our almond milk fresh daily from whole blanched almonds, spring water & nothing else. Blanched almonds are very expensive, it's a price that we cannot avoid & our mark up is minimal. We will not use the cheaper commercial almond milks, read the labels to understand why. It may be a cheaper product, but there is a reason for that and those reasons are not in line with how we make and serve food at Clarke's. Thanks for understanding.

HOT
