One in a melon!

Watermelon is thought to have originated in the Kalahari Desert of Africa. The first recorded watermelon harvest occurred nearly 5,000 years ago in Egypt and is depicted in Egyptian hieroglyphics on walls of their ancient buildings. From there, watermelons spread throughout countries along the Mediterranean Sea by way of merchant ships. By the 10th century, watermelon found its way to China, which is now the world's number one producer of watermelons.

Some fun facts:

- Watermelon is 92% water
- Watermelons are cousins to cucumbers, pumpkins and squash
- The first cookbook published in the U.S. in 1776 contained a recipe for watermelon rind pickles.
