WINE BY BOTTLE

The Western Cape of South Africa is boasts some of the world most beautiful vineyards. We are fortunate to be able to offer you a small selection “from our doorstep”

Below is a short guide to some of the local grape varieties you will find on our menu, influenced by our unique climate and soil (Terrior)

Enjoy with us some of the best the Cape has to offer.

White varieties grown locally featured on our menu include:

Chardonnay - Locally, much experimentation has been taking place with barrel fermentation and oak ageing of Chardonnay, and excellent wines in a number of styles are being produced. It is also used in some of the base wines from which Cap Classique sparkling wines are made.

Chenin Blanc (Steen) - The most widely cultivated variety in the Cape. Its fruitiness finds favour with a wide range of palates.

Pinot Gris - Planted on a very small scale in South Africa. Produces wines which are full and well balanced.

Sauvignon Blanc - Sauvignon is most readily associated with the eastern Loire region, which is known for its classic crisp, dry Sancerre and smoky Pouilly-Fumé.

Semillon (Green Grape) - Produces a full yet subtle wine with little acid; often used in blends.

Red varieties grown locally featured on our menu include:

Cabernet Sauvignon - An increasingly significant variety at the Cape. Cabernet Sauvignon produces top-class wines that develop well with age into spicy, full, complex wines. As in Bordeaux, it may be blended with Merlot or its relative, Cabernet Franc.

Merlot - An early ripening variety traditionally used as a blending partner to add softness and breadth to Cabernet Sauvignon but now increasingly being bottled as a varietal wine, with some superb results locally.

Pinot Noir - This variety is now producing excellent wines in the cooler viticultural areas of South Africa. Wines tend to be lighter in colour with distinct vegetable flavours and aromas. A large proportion is used in Cap Classique sparkling wines.

Pinotage - Unique to South Africa, it can produce complex and fruity wines with age but is also often very drinkable when young. With great strides made in the making of Pinotage, South Africa's own variety is rapidly gaining increasing acceptance and finding favour worldwide both as a varietal bottling and in blends.

Shiraz - A noble variety of French origin. Better known as Syrah elsewhere. Made in several different styles here, it yields deep purple smoky and spicy wines which develop a complex character with age.
