

## THE SPICE EXPERIENCE at GOLD RESTAURANT

Spice Experience at GOLD is an intimate and immersive dinner experience for 2 - 10 guests where you will embark on a journey to discover where flavour was born.

The history of spices is actually the history of the world. The desire for spices like pepper, cinnamon, nutmeg and cloves started extraordinary voyages around the world leading to the discovery of new lands and people.

Venture down the spice route with Irene and Luthando as your hosts as they explain how spices were used as currency and how they helped to develop the world, all the way from the explorers of Portugal, to the traders of India and farmers of Zanzibar. Taste, smell and delight in an aromatic new world as you taste and learn more about African spice pastes and well known African spice mixes.

Be transported into the beating heart of this vibrant continent through this one-of-a-kind unique dining experience.
