# M E N U

As the title says, each visitor is led on a Voyage of Flavors, which includes a wide variety of alternatives. The cuisine was devised by the renowned Chef Makoya, whose inspiration for it comes from his vast travels as well as his collaborations with the top Japanese chefs from Johannesburg and Cape Town. He has contributed new meals to our menu that are authentic to his previous cuisine recipes and reflect his own personal expertise. In order to provide us with the great dishes, Chef Makoya has spent a significant amount of time finding the best ingredients from local suppliers. Chef Makoya believes in the use of sweet aromatic flavours in his dishes, which reflects the influences of other top chefs in these modern days.
